Energy-Efficiency Incentives

All rebates \$200 and less will be applied as bill credits.

Ag Rebates

Rebates available for agricultural uses include heat lamps, lighting, heat pads, low-energy livestock waterers, high-efficiency water heaters, variable frequency drives, 3-phase premium efficiency motors, heat recovery, plate cooler/pre-cooler, exhaust and circulating fans, and more. Energy advisors can provide details.

Appliance Rebates

- All appliances must be ENERGY STAR® rated. Maximum of \$250 per account per year.

Clothes Washer...	\$50
Dishwasher	\$25
Freezer	\$25
Refrigerator	\$25

Central Air Conditioning Rebates

- High-Efficient A/C, SEER 14.5 to 16+**
\$100 to \$200 per unit

Heating/Cooling Rebates

- Geothermal Heat Pumps**
\$300 per ton for ENERGY STAR® or EER 14+ and COP 3.3+; add \$50 per unit for a desuperheater
- Air Source Heat Pumps**
\$400 to \$600 per unit for SEER 14.5 to 16+
- Heat Recovery Ventilators**
\$125 per unit (new or existing home)

Insulation and Weatherization Rebates

Incentives for existing homes and materials only. Owners and renters are eligible. Can be installed by member or contractor.

- Insulation** – Must increase levels to R38 in ceilings, R19 in walls, and R10 in foundations.
 - Electric heat homes
40 percent of cost, up to \$600 maximum
 - Non-electric heat homes with central A/C
20 percent of cost, up to \$300 maximum

- Infiltration Control** – Weather-stripping, window cover/wrap, outlet/switch seals, caulking, and foam sealer. Minimum \$25 purchase required to qualify.
 - Electric heat homes
40 percent of cost, up to \$200 maximum
 - Non-electric heat home with central A/C
20 percent of cost, up to \$100 maximum
- Duct Insulation** – For unconditioned spaces only.
 - Electric heat homes
40 percent of cost, up to \$200 maximum
 - Non-electric heat homes with central A/C
20 percent of cost, up to \$100 maximum

Lighting Rebates

- T5 or T8 fluorescent lights, 2, 4, or 8 foot**
\$6 per fixture for new or retrofit (must have electronic ballast)

Water Heating Rebates

- High-Efficiency Electric Water Heaters**
Rebates will be for tank-type water heaters 50 gallons or larger with energy factors of 90+. Rebates on Marathon water heaters will be applied instantly to the cost of purchasing the unit from Butler County REC or a local contractor.
- Heat Pump Water Heaters**
\$300 per add-on or integrated unit (connected to an electric water heater)
- Solar Water Heaters**
\$300 per unit (connected to an electric water heater)

Federal Tax Credits

Energy advisors can provide information on tax credits that apply to these installations.

Butler County REC
